

A.C.L. Construction Renews “As & When Required” Supervision Services Agreement with B.C. Ministry of Transportation and Transit

Renewal Extends Recurring Seasonal Revenue Stream Supporting Peace Region Road Maintenance

FORT ST. JOHN, British Columbia –June 11, 2026 – A.C.L. Construction Ltd. (TSXV: ACL; OTCQB: AACLF; FSE: A3LO) (the “Company” or “A.C.L.”), a leading provider of civil construction services, project management, general construction and underground utilities in the Peace Region of British Columbia, is pleased to announce the annual renewal of its “As & When Required” Supervision Services agreement (the “Agreement”) with the British Columbia Ministry of Transportation and Transit (“MOTT”), originally signed in July 2025.

The “As & When Required” structure gives MOTT direct access to A.C.L.’s supervision capabilities as projects are identified throughout the season, without a separate procurement process for each assignment. This pre-qualified standing keeps A.C.L. positioned for recurring, repeatable work with a stable public-sector client.

“We are pleased to have our agreement with the Ministry renewed for another season,” commented John McPherson, CEO of A.C.L. He adds, “this reinforces a recurring seasonal relationship with a public infrastructure partner and supports a predictable revenue stream across Northern British Columbia.”

A.C.L. will continue supervising road maintenance work across the Peace Region, including ditching, culvert replacements, and gravel and rip rap hauling — programs essential to the safety and reliability of the region’s transportation network.

While the Agreement carries no fixed value or minimum commitment, it provides ongoing access to seasonal supervision work that typically runs from June through the end of September, with volumes tied to provincial budgets and the number of projects scheduled under the MOTT program.
