Edmonton, Alberta--(Newsfile Corp. - October 27, 2025) - **Torr Metals Inc.** (TSXV: TMET) & **Metalero Mining Corp.** (TSXV: MLO) announced today that they will be participating in the 51st Annual New Orleans Investment Conference at the Hilton New Orleans Riverside November 2 - 5, 2025.

The New Orleans Investment Conference gathers some of the world's brightest and most successful analysts, newsletter writers and investors. This year's event will highlight all major asset classes, including Commodities.

About Torr Metals

Torr Metals (Edmonton, AB) is unlocking the next generation of brand-new copper-gold discoveries within British Columbia's premier copper-producing district. The company is advancing four undrilled and highly compelling porphyry targets spanning 12 km² at its flagship Kolos Copper-Gold Project (275 km²) and strategically optioned Bertha Property (57 km²), both located within the prolific Quesnel Terrane. Ideally situated with direct highway access just 30 km southeast of the Highland Valley Copper Mine, Canada's largest open-pit copper operation, and 40 km south of Kamloops, Torr offers investors exceptional infrastructure advantages for low-cost, year-round exploration. To learn more, visit Torr Metals online or view company documents via SEDAR+ at www.sedarplus.ca.

About Metalero Mining Corp.

Metalero Mining Corp. is a Canadian-based junior exploration company focused on copper and gold projects in North America. Its 166 square kilometer, road-accessible Benson Project serves as Metalero's flagship and is host to five prospects illuminated by recent Artificial-Intelligence ("AI") work by Geoscience BC in the prolific Quesnel Terrane. The limited historical exploration at Benson has identified numerous gold and copper anomalies on surface and in drilling. A tight capital structure and low burn rate put Metalero in a favourable situation for financing and further acquisitions.
